MOHAMED SALEH

SENIOR FRONTEND WEB DEVELOPER

Obour, Egypt | mohamedsaleh@sci.asu.edu.eg| 01090108002 | LinkedIn | Portfolio

Frontend Web Developer building responsive, high-performance web apps. Expert in React.js, JavaScript, PHP, and WordPress. Proven track record of delivering scalable solutions (E-commerce, Business) and resolving complex technical maintenance issues.

PROFILE

- **Professional Experience:** Senior Frontend Developer with 5+ years **at Rowaad**, focused on enhancing user experience through innovative, responsive, and scalable web solutions.
- **Academic Background:** Demonstrator at **Ain Shams** University since 2018; graduated with high honors in Mathematics and Computer Science.
- **Research & AI:** Master's candidate specializing in AI/ML, with a thesis focused on **Feature Extraction for Electroencephalogram (EEG) signals classification using Neural Networks.**
- **Core Skills:** Expert in **JavaScript**, **React.js**, **PHP**, and **Python**, with a unique ability to bridge the gap between advanced academic research and scalable, industrial-grade web applications.

PROFESSIONAL EXPERIENCE

Senior Web & Frontend Developer | Rowaad *Mar 2020 – Present*

Phase 1: Full-Cycle Web Project Development (2020 – 2022)

- Managed the end-to-end development lifecycle for diverse web projects, specializing in **WordPress** and **OpenCart** platforms.
- Tailored complex themes and developed custom plugins to meet specific client business requirements.
- Collaborated directly with stakeholders to define project scopes, resulting in a **30% increase in user engagement.**

Phase 2: Advanced Frontend Engineering & Optimization (2022 – Present)

- Diverse to building dynamic, single-page applications (SPAs) using **React.js**.
- Successfully **reduced website loading times by 20%** through efficient code practices and resource management.

- Integrated RESTful APIs to streamline data flow and enhance application performance.
- Partnered with cross-functional teams to translate complex wireframes into high-performance code.

Demonstrator (Teaching Assistant) | Ain Shams University *Jun 2018 – Present*

- **Academic & Research Integration:** Leverage a strong foundation in **Mathematics and Computer Science** to bridge the gap between theoretical research and practical software applications.
- **Advanced Instruction:** Deliver tutorials and laboratory sessions for undergraduate courses, focusing on programming languages (Python, Java, C++) and core CS concepts.
- **AI/ML Academic Support:** Integrate modern AI/ML frameworks (e.g., PyTorch) into practical sessions to foster student learning in neural network architectures.
- **Research Contribution:** Actively involved in the academic community as an **M.Sc. candidate,** focusing on **Feature Extraction for EEG signals classification.**

EDUCATION

B.Sc. in Mathematics and Computer Science | Ain Shams University *Jan 2012 – Jan 2016*

- **Grade:** Graduated with a general grade of **Very Good**, reflecting strong academic performance.
- **Academic Standing:** Graduated with High Honors, ranking among the top students in the department.
- **Core Curriculum:** Focused on Advanced Mathematics, Data Structures, Algorithms, and Software Engineering.
- **Key Achievement:** Developed a deep analytical foundation in mathematical modeling and computational logic.

TECHNICAL PROFICIENCIES

- **Programming Languages:**
  - **Frontend Technologies:** JavaScript (ES6+), React.js, HTML5, CSS3.
  - **Backend & CMS:** PHP, WordPress (Custom Themes/Plugins, Elementor, Gutenberg), OpenCart.
  - **Expert:** Python (PyTorch, Scikit-learn).
  - **Familiar / Academic Knowledge:** Java, C++, MATLAB.
- **AI & Research Skills:**
  - Machine Learning: Neural Networks, Feature Extraction, Signal Processing.
  - Specialized Data: EEG Data Analysis and Classification.
  - Mathematics: Advanced Mathematical Modeling, Linear Algebra, and Statistics.
